It's Harvest Time at MP&MS!

LARKSPUR, Calif. — It's harvest time at Marin Primary & Middle School!

This Friday, Oct. 20, from 12-3 p.m., Marin Primary & Middle School will hold its annual School-wide Harvest Festival for the MP&MS community. The children harvest fruits and vegetables from the garden and pick their pumpkins. They bake bread, make apple sauce, salsa, Indian corn necklaces and birdhouses from gourds all from our garden!

The School Harvest Festival is part of the Outdoor Education Center which is integrated into the Marin Primary & Middle School curriculum and managed by a Master Gardener.

If you are interested in covering this event or photos, please feel free to contact me. We would also be happy to provide a photo from this event to run in your section.

Marin Primary & Middle School, founded in 1975, is a Pre-Kindergarten through eighth grade co-educational independent school located in Marin County, California. Marin Primary & Middle School's curriculum is built around "teams of teaching." We believe education requires an integrated and interactive approach, inside the classroom and beyond - from physical education to science and technology, the arts and languages to outdoor education.
