Lights, Camera, Action! MP&MS Summer Camp Student Filmmakers Hold Screening

The MP&MS Summer Day Campers will be walking to the Lark theater on Thursday, August 4, for a 10 a.m. private screening of 10 or so short films/music videos. One of the electives offered at our camp is a movie making/ music video making class.

Thus far this summer the children have created nearly 60 projects and will continue to create more as the summer continues. The projects were created and developed by the campers with tech support from over four counselors. "Many of the middle school campers did their own filming and editing, and our younger campers received more support," says Mario Moran, Camp Director. "These films represent the great talent of our student filmmakers."

Due to the length of all the projects only 10 or so were selected for this Thursday's screening which should run for just over one hour. All campers are welcome to come, Kindergarten through 8th. Families are welcome too.

Marin Primary & Middle School, founded in 1975, is a Pre-Kindergarten through eighth grade co-educational independent school located in Larkspur, Marin County, California. Our curriculum is built around "[teams of teaching](#)." We believe education requires an [integrated and interactive approach](#), inside the classroom and beyond - from physical education to science and technology, the arts and languages to outdoor education.
